

Steering and Organizing Committee:

- **Dr. Magdi Y. Amin**

Professor of Astronomy, Faculty of Science, Cairo University.

- **Dr. Gomaa Abdel-Maksoud**

Associate Professor of archeology, Faculty of Archeology, Cairo University.

- **Mr. Mohamed Galal**

MA in Egyptology, Faculty of Archeology, Cairo University.

- **Eng. Mostafa N. Sherif**

Graphic Designer, Science Heritage Center, Cairo University.

- **Mrs. Rania Ezzat**

Technical Secretary, Science Heritage Center, Cairo University.

Accommodation

Accommodation in Cairo will be at Cairo Univ. Guest House on single or double room HB rates. Please advise your needs by email either single or double.

The hotels are close to the conference site, prices are requested in the web pages of the hotels, some of them can organize additional services like transportation from and to the airport, etc.....

For more information please contact the following site to choose suitable hotel.

The first International Conference on Ancient Egyptian Science

The Mysteries of Ancient Egyptian Civilization in Science

April 24 - 26, 2010

Under The Patronage

Mr. Farouk Hosny

Minister of Culture

Dr. Hany Helal

Minister of Higher Education

Dr. Hossam Kamel

President of Cairo University

Under Supervision **Dr. Heba Nassar**

Vice President of Cairo University

Honorary Chairmen

Dr. Zahi Hawass

Vice Minister of Culture, Secretary General,
The Supreme Council of Antiquities

Dr. Abd El Halim Nur El Din

Professor of Egyptology,
Cairo University

Chairman

Dr. Wafaa Mahrous Amer

Director of Science Heritage centre,
Cairo University

Co-ordinator

Dr. Hamed Abdel-Reheem Ead

Professor of Chemistry, Faculty of Science,
Consultant for Science Heritage centre, Cairo University

<http://shc.cu.edu.eg/conference>

For the first time in the world, scientists, historians, archaeologists of the World's most renowned Experts on the subject are coming together to unveil scientific discoveries and the new related theories about the distant past and the Egyptian civilisation. This unique event will most certainly captivate the audience with fascinating data about how advanced the Ancient Egyptians people were and what we to know from their scientific experiences.

The speakers will present exclusive material related to scientific and archaeological aspects.

A once in a lifetime opportunity to meet and discuss with some of the world's most prominent experts about our past and understand the implications of the finding for our future, The conference is expected to attract interest from all over the world among universities, scientific societies and the general public.

Goals and motivation

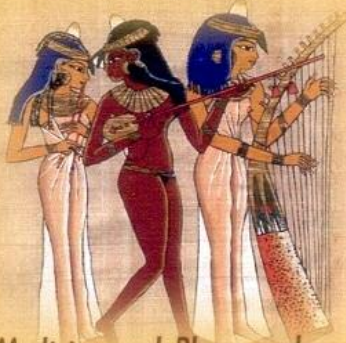

1. Increase awareness of the ancient Egyptian civilization.
2. Show the role of science in the development of peoples.
3. Encourage the preservation of the values in the ancient Egyptian civilization.
4. Encourage researchers and scientists to discover more secrets of science in ancient Egyptian civilization.

We encourage everyone to contribute to the main theme:

(Agriculture - Astronomy - Mathematics - Chemistry - Medicine and Pharmacology - Writing - Ancient technologies - New technology used in Analysis and investigation of ancient Egyptian materials - The role of science in the conservation and restoration of ancient Egyptian objects - Geology - Geography - Anatomy - Music and Sports).

Proposals should include:

- Title, authors and outline of the paper (no more than 300 words)
- Contact, e-mail address, telephone/fax numbers of authors
- Name and affiliation of presenter (one of the authors of the paper)
- Short biographical statement regarding the presenter (one of the authors of the paper)

Important dates and information

- Papers abstract must be submitted by February 20th, 2010.
- Accepted papers will be notified by March 15th, 2010.
- The full paper is due no later than March 30th, 2010 and must be an original submission not published elsewhere.
- Conference Language English and Arabic. The proceedings of the conference will be evaluated and published after the event.
- All information and updating will be made available on our web site:
<http://shc.cu.edu.eg/conference>

Conference Topics

- Medicine and Mummification
- Pharmacology and Herbalist
- Mathematics and Astronomy
- Earth Sciences and Agriculture
- Art of Architecture and Construction
- Water management and irrigation
- The textile industries and fashion

International Scientific Committee

- Prof. Rosalie David
Manchester University, England
- Prof. Fawzya Hussien
National Research Center, Egypt

Conference Fees (not including accomodation)

- For Egyptians (200 L.E.)
- Non-Egyptians (200 \$.)
